PROFILE

Hi there! I'm Ahammad Sinan, a passionate UI/UX designer dedicated to creating modern, intuitive, and visually engaging digital experiences. With expertise in Figma, Adobe Photoshop, and user-centered design principles, I specialize in wireframing, prototyping, responsive design, and crafting seamless user interfaces. I enjoy transforming ideas into clean and interactive designs that not only look great but also provide meaningful and user-friendly experiences.

WORK EXPERIENCE

- Febno Technologies

2024-2025

UI UX Designer

 - Designed intuitive and user-friendly UI layouts focused on improving user experience and visual consistency.
 - Created wireframes, mockups, and responsive interface designs using Figma and Photoshop.
 - Collaborated on multiple design projects, contributing to UI improvements and modern design solutions.
 - Designed engaging academy website interfaces, including course banners and responsive layouts, focused on improving visual appeal and user experience.
 - Created clean and user-friendly website designs for client projects, enhancing brand presence through modern layouts, responsive interfaces, and visually appealing design elements.

EDUCATION

- Advanced Diploma in UI UX Designing

2023-2024

Skilz Hub, Kottakal
- Higher secondary

2017-2019

Directorate of Higher Secondary Education (DHSE)
